LICENSED CLINICAL PSYCHOLOGIST IN PRIVATE PRACTICE (*July 2017 – Present*)

- Manages solo psychologist practice with offices in Doylestown, PA and Center City, Philadelphia
- Conducts individual and couples counseling for adults who present with a wide spectrum of clinical diagnoses and personal concerns
- Manages all contact, scheduling, billing, and referral for clients in the private practice

POSTDOCTORAL FELLOWSHIP/STAFF PSYCHOLOGIST

Temple University's Tuttleman Counseling Services (*August 2014 – February 2017*)

- Conducted individual outpatient counseling within a fast paced, high volume, large university counseling center
- Responsibilities included weekly "walk in", triage hours, assisting students in crisis
- Designed and co led an "Experiential Process Group" where students with a variety of presenting concerns receive support, feedback, and develop insight into their behavior and the behavior of others

INTERNSHIP EXPERIENCE

Swarthmore College Counseling Center (*August 2013 – May 2014*)

- Practiced individual outpatient psychotherapy at small liberal arts college's counseling center
- Responsibilities included all patient management and treatment planning responsibilities
- Co led a small process group for students with depression and anxiety

Fairmount Behavioral Health (*June 2012 – June 2013*)

- Practiced short term individual therapy on adolescent female unit in a large inpatient behavioral health hospital
- Conducted weekly group therapy sessions focusing on the development of coping skills
- Completed assessment batteries and written report as per psychiatrist referrals

PRACTICUM EXPERIENCE

St. Joseph's Counseling Center (*Sept 2011 – May 2012*)

- Practiced individual outpatient psychotherapy at a medium sized Catholic University Counseling Center
- Responsibilities included intakes, assessment, and treatment planning
- Designed and implemented professional development seminars for college counseling staff

Philadelphia Job Corps, Wellness Center (*Sept. 2009- May 2010*)

- Conducted biopsychosocial assessments of students with history of mental health treatment or trauma, submitted typed reports on each evaluation
- Created lesson plans, led weekly classes as part of the "life science" curriculum on topics such as relationships, social and emotional well being, and substance abuse
- Facilitated weekly voluntary stress and anger management small group
- Offered consultation and short term therapy for students for mental health issues including anxiety, depression, bereavement, and post traumatic stress
